

SAIF UL FAYAZ

Electrical Engineering Student

Bandipora, Jammu & Kashmir, India | +91 78899 51631 | saiful.fayaz@outlook.com | linkedin.com/in/saifulfayaz

PROFESSIONAL SUMMARY

Final-year B.Tech Electrical Engineering student at the University of Kashmir (graduating 2026) with hands-on internship experience at NHPC Limited's Kishanganga Hydroelectric Power Station. Practical exposure to power generation, HV substations, and grid operations, backed by an NCVT-certified diploma in computer operations. Looking for entry-level roles in power systems and electrical engineering.

EDUCATION

B.Tech in Electrical Engineering — University of Kashmir

2022 - 2026 (Expected)

8th semester (final year). Coursework: power systems, electrical machines, circuit theory, control systems, electronics, instrumentation, energy management, restructuring of power systems.

NCVT COPA Diploma — ITI Bandipora

Diploma

Computer Operator & Programming Assistant. IT fundamentals, MS Office, basic programming and computer operations.

Higher Secondary (12th, Science) — NM Boys Higher Secondary School, Bandipora

Secondary (10th) — Faiz-e-Aam Secondary School, Bandipora

EXPERIENCE

Engineering Intern — NHPC Limited, Kishanganga Power Station, Bandipora, J&K

2024 - 2025

- Gained direct exposure to utility-scale hydropower generation, HV substation infrastructure, and grid-level power evacuation at a live run-of-river hydroelectric facility.
- Supported technical reporting and observed safety protocols across generation units and substation operations.
- Applied classroom knowledge of power systems and electrical machines to real operating conditions on-site.

PROJECTS

Solid State Transformer — Final Year Project

- Designed power-electronic transformer concepts covering control, conversion stages and modern integration of electrical energy systems, modelled in MATLAB/Simulink.

Power Systems & Energy Markets — Academic Coursework

- Studied restructuring of power systems, load flow analysis, locational marginal pricing (LMP) and generation economics for grid-level decision making.

TECHNICAL SKILLS

Power Systems: Power Generation · Distribution · Hydroelectric Systems · Load Flow · Grid Operations · Market Restructuring

Electrical Engineering: Circuit Theory · Electrical Machines · Control Systems · Electronics · Instrumentation · High Voltage

Computing & IT: MS Office · Computer Operations · Basic Programming · Data Management

LANGUAGES

English · Urdu · Kashmiri · Hindi
