PROFESSIONAL SUMMARY

Electrical Engineering graduate with a CGPA of 7.48 and internship experience at NHPC's Kishanganga Power Station. Academic project experience in MATLAB/Simulink modelling and a preliminary solid-state transformer prototype. Seeking an entry-level role in electrical engineering or power systems.

EDUCATION

B.Tech in Electrical Engineering | University of Kashmir | 2022 - 2026

CGPA: 7.48

Computer Operator and Programming Assistant (COPA) | ITI Bandipora

NCVT-certified qualification in computer operations and programming fundamentals.

Class 12, Science | NM Boys Higher Secondary School, Bandipora

Marks: 395/500 (79.0%)

Class 10 | Faiz-e-Aam Secondary School, Bandipora

Marks: 444/500 (88.8%)

INTERNSHIP EXPERIENCE

Engineering Intern | NHPC Limited

Kishanganga Hydroelectric Power Station, Bandipora

- Observed hydropower generation equipment, high-voltage substations and grid-level power evacuation at a run-of-river generating station.
- Supported technical reporting and learned about monitoring practices, utility operations and electrical safety procedures.

ACADEMIC PROJECT

Design, Modelling and Performance Evaluation of Solid-State Transformer

B.Tech team project | University of Kashmir | 2026

- Worked in a four-member team on a 50 W, single-phase transformer with AC-DC rectification, isolated DC-DC conversion and an SPWM-controlled DC-AC inverter.
- Contributed to MATLAB/Simulink modelling and a preliminary low-voltage hardware prototype using Arduino Mega 2560, MOSFETs, gate drivers and an LC filter.
- The team's simulation reported 91.07% overall efficiency and 4.44% output voltage total harmonic distortion (THD); calibrated hardware validation remains future work.

Dissertation: saiful.in/dissertation.pdf

TECHNICAL SKILLS

Power systems: Power generation, distribution, hydropower, load flow, grid operations

Electrical engineering: Electrical machines, circuit theory, control systems, instrumentation

Tools and computing: MATLAB/Simulink, MS Office, computer operations, basic programming

LANGUAGES

English, Urdu, Kashmiri, Hindi
