PROFESSIONAL SUMMARY

Electrical Engineering graduate with internship experience at NHPC's Kishanganga Power Station and project experience in MATLAB/Simulink and power electronics. Seeking an entry-level electrical engineering role with a focus on power systems and generation.

EDUCATION

B.Tech in Electrical Engineering

2022 - 2026

University of Kashmir | CGPA: 7.48

Computer Operator and Programming Assistant (COPA)

ITI Bandipora | NCVT-certified

Class 12 - Science

NM Boys Higher Secondary School, Bandipora | 395/500 (79.0%)

Class 10

Faiz-e-Aam Secondary School, Bandipora | 444/500 (88.8%)

INTERNSHIP EXPERIENCE

Engineering Intern | NHPC Limited

18 Jan - 7 Feb 2025

Kishanganga Hydroelectric Power Station, Bandipora

- Observed hydropower generation equipment, high-voltage substations and grid-level power evacuation.
- Supported technical reporting and learned station monitoring practices and electrical safety procedures.

ACADEMIC PROJECT

Solid-State Transformer | B.Tech Team Project

2026

Design, modelling and performance evaluation | University of Kashmir

- Worked in a four-member team on a 50 W transformer with AC-DC, isolated DC-DC and SPWM-controlled DC-AC conversion stages.
- Contributed to MATLAB/Simulink modelling and a preliminary prototype using Arduino Mega 2560, MOSFETs, gate drivers and an LC filter.
- Simulation results: 91.07% overall efficiency and 4.44% output voltage total harmonic distortion (THD). Calibrated hardware validation remains future work.

Dissertation: saiful.in/dissertation.pdf

TECHNICAL SKILLS

Power systems: Power generation, distribution, hydropower, load flow, grid operations

Electrical engineering: Electrical machines, circuit theory, control systems, instrumentation

Tools and computing: MATLAB/Simulink, MS Office, computer operations, basic programming

LANGUAGES

English, Urdu, Kashmiri, Hindi
